Experience

Software Engineer - [Magnifi](#) 2015 - 2016

Developed new features and UI improvements for Magnifi to help music fans find and buy tickets to live shows near them.

Introduced API-based CMS solution to create and manage Magnifi's promotions.

Worked closely with design and product teams to discuss and implement solutions to user interface problems through rebranding and a UI overhaul.

Initiated effort and worked with A/B testing framework to make effective changes to Magnifi's join page.

Expanded and refactored parts of Magnifi's server-side API.

Co-founder & Lead Developer - Music Putty 2013 - 2015

Developed a music web application for independent musicians to gain exposure and revenue through crowdfunding, donations, and free streaming.

Implemented application using Angular.js, Node.js, MySQL, and Amazon Web Services.

Trained developers to contribute to the project and, in doing so, honed management, communication, and interdisciplinary collaboration skills.

Developer - [FreeSound Synth](#) 2014

Built a granular synthesizer using FreeSound API and Web Audio API.

Front End Development / Design Intern - [Edufii](#) Summer 2013

Designed and implemented Tumblr and Mailchimp designs using HTML, CSS, and Mailchimp's proprietary editor.

Designed and implemented an iteration of Edufii's landing page.

Photographed and edited footage used in an iteration of Edufii's landing page.

Internet Director - [KCPR](#) 2012 - 2013

Developed website for Cal Poly's community Radio Station, KCPR, in use from 2012-2014. Helped to develop a subsequent iteration of the site.

Education

2015: Cal Poly, San Luis Obispo

BA in Comp. Sci. and Music
through LAES.

2000 - 2010: SF Conservatory of Music

Classical Piano, bi-annual performances, solo graduate performance.
